### EXECUTIVE SUMMARY

To provide human resource services and programs that enable state government to attract, develop and retain a productive and diverse workforce that excels in delivering quality services to the citizens of Louisiana."

- State Civil Service Mission

he annual workforce planning survey was conducted in October 2016. The survey, which was sent to Executive branch agencies and educational entities, yielded a 67% participation rate. The 2016 survey is similar in content to the 2015 survey. Responses provided by the major agencies that participated in the survey are arranged by subject category and are summarized and highlighted below.

"

The economic and business climates look very similar in 2016 as in 2015 with agencies continuing to address budget cuts due to declining revenue. Agencies are still concerned about turnover, using pay mechanisms to attract talent, and using recruiting efforts to fill vacancies. Budget concerns are also an issue for more than half of the agencies who responded.

While agencies are still using budget friendly options to attract and retain new talent such as job sharing, telecommuting, rewards and recognitions, and flexible work hours, the majority of agencies indicated they use various pay mechanisms to attract and retain current employees. As with last year, agencies are still concerned about reductions in force. This trend will likely continue until budgets and the economy stabilize.
